filipvelikoski9@gmail.com

## ABOUT ME

I am a student at the Faculty of Informatics – St. Apostle Paul, currently in the process of completing my degree. Alongside my studies, I have successfully completed a Front-End Developer Academy at Brainster, where I worked on real-world projects, developed applications, and participated in a hackathon. I have gained solid knowledge in JavaScript, HTML, CSS, React, and Next.js, and I am eager to apply my skills in a professional environment. While I don't have formal work experience yet, I am enthusiastic about starting my career and continuously learning from new challenges.

Skopje

### STUDIES IN PROGRESS

Studied Information Science & Technology, gaining knowledge in software development, data management, and IT systems.

### STUDIES IN PROGRESS

Attended a Front-End Development program, focusing on building responsive and dynamic web applications. Gained hands-on experience with HTML, CSS, JavaScript, and modern frameworks such as React.js and Next.js. Worked on real-world projects, improving problem-solving skills, UI/UX design principles, and best coding practices.
